

## SAPPHIRE SURF™ BLUEBEARD

*Caryopteris x clandonensis* 'Blauer Splat'

**USDA Hardiness Zone:** 5-9

**AHS Heat Zone:** 9

**Height:** 2'

**Width:** 3'

**Exposure:** Full Sun

**Shape:** Spreading

Sapphire Surf™ Bluebeard is a compact, low maintenance shrub that produces a swell of stunning blue flowers from top to bottom in late summer and fall when other plants are showcasing the late-season warm tones. The cool tones are a fantastic contrast, especially in mass plantings. This late bloomer is a boost for shoulder season sales as well as migrating pollinators. The habit is lower growing than most bluebeard, so it makes a colorful groundcover. As an added bonus, Sapphire Surf™ is deer and drought resistant. Selected by Kordes Nursery in Germany.
