This Tatarian dogwood is a compact selection with attractive chartreuse foliage. Both sun and heat tolerant, it retains bright leaf color throughout summer. New leaves are tinged with bronze, and the stems have a rich red hue early in the season. Fall foliage becomes a rainbow of purple, red, yellow, and orange. In winter the stems turn glossy scarlet red. Unlike most *C. alba*, Neon Burst™ works well as a specimen plant or in large groupings. From Bylands Nursery in British Columbia.
