

## AUTUMN INFERNO® COTONEASTER

*Cotoneaster* 'Bronfire' PP30,493

**USDA Hardiness Zone:** 5-7

**AHS Heat Zone:** 7

**Height:** 5-6'

**Width:** 4-5'

**Exposure:** Full Sun to Part Shade

**Shape:** Upright, Arching

Autumn Inferno® Cotoneaster is a natural cross between *C. lucidus* and *C. apiculatus*, showcasing many of the traits of *C. lucidus* that we so love for a hedge: great form, easily pruned, clean foliage all season long, and vibrant fall color. Beyond those attractive attributes, Autumn Inferno® forms small red berries along the stems in fall, giving it added late season interest. The berries stay on the plant until the birds come and take them, no mess involved. Autumn Inferno® is perfect as a pruned formal hedge or has a beautiful arched shape if left to grow naturally. Discovered by Bron & Sons Nursery in British Columbia.
