SHRUBS & TREES

## COOL SPLASH<sup>®</sup> HONEYSUCKLE

*Diervilla sessilifolia* 'LPDC Podaras' PP19,391

**USDA Hardiness Zone:** 4-7

**AHS Heat Zone:** 7

**Height:** 2.5-4.5'

**Width:** 2.5-4.5'

**Exposure:** Full Sun to Part Shade

**Shape:** Compact, Mounded

Cool Splash<sup>®</sup> Honeysuckle has bright white leaf margins that remain vibrant and clean until the first frost. Bunches of yellow blossoms adorn the plant in June and July, adding texture and color to the landscape. Cool Splash<sup>®</sup> is easy to grow in a variety of soils as long as it is not bone dry. This cultivar is a densely branched shrub that can form underground suckers, developing colonies over time. Use in lightly shaded areas or mass plantings in full sun for a spectacular effect. Found by Peter Podaras.
