SWEET STAR® GARDENIA

Gardenia jasminoides 'PIIGA-III' PP29,448

USDA Hardiness Zone: 7-9

AHS Heat Zone: 9

Height: 3-5'

Width: 4-5'

Exposure: Full Sun to Part Shade

Shape: Compact, Mounded

Blooming into late summer and early fall, Sweet Star® is covered in single flowers starting early May followed by excellent rebloom throughout summer. As flowers fade, they are followed by pretty orange fruit in fall. Sweet Star® makes up quickly in production, is nicely compact and rounded in the landscape, and has glossy green leaves that serve as a lovely backdrop to the crisp white flowers. Reliably cold hardy in Zone 7, this variety extends the typical range for this fragrant garden favorite. Bred by Plant Introductions, Inc.
