**USDA Hardiness Zone:** 5-8

**AHS Heat Zone:** 8

**Height:** 5-8'

**Width:** 4-7'

**Exposure:** Full Sun

**Shape:** Upright

Fiji™ Hibiscus is a showstopper in the garden, maturing to hedge size and covered in flowers to fill the summer landscape with blooms. Hardy to Zone 5, Fiji™ allows you to bring a tropical flare to a moderate climate. Medium pink flower buds give way to 3-4 inches white flowers that appear brushed with pink and lead to a dark red center. As the flowers slowly fade, the petals age to a beautiful light pink. Bred by Minier Nursery in France.
