

## JETSTREAM™ OAKLEAF HYDRANGEA

*Hydrangea quercifolia* 'PIIHQ-I' PP25,319

USDA Hardiness Zone: 5-8

AHS Heat Zone: 8

Height: 5-6'

Width: 4-5'

Exposure: Full Sun to Part Shade Shape: Compact, Rounded

Jetstream™ Hydrangea is a dense, compact oakleaf hydrangea with a non-flopping habit. The lustrous dark green foliage is resistant to leaf spot and turns fantastic orange-red in autumn. Flowers, held high on strong stems, bloom in early summer and are a beautiful white that ages to pink. Jetstream™ is a classic native flowering shrub for the garden and for mass planting, especially in a woodland setting. The exfoliating tawny-brown bark adds winter interest, as do the dried flower heads. Bred by Plant Introductions, Inc.
