Strawberry Sundae<sup>®</sup> Hydrangea is a perfect small hedge and wonderful in mass plantings with flowers that emerge creamy white in midsummer and change to pink as night temperatures cool down. With its compact habit, this hydrangea adds striking flowers to small spaces and is nicely proportioned fit underneath a windowsill. The strawberry pink color lasts well into fall, extending your hydrangea season until frost, and the blooms are excellent for fresh cut and dried flower arrangements. Bred by Jean Renault in France.
