

## COBALT-N-GOLD™ HYPERICUM

*Hypericum kalmianum* 'PIIHYP-I' PP25,318

**USDA Hardiness Zone:** 4-7

**AHS Heat Zone:** 7

**Height:** 2-3'

**Width:** 4-5'

**Exposure:** Full Sun

**Shape:** Mounded

Cobalt-n-Gold™ Hypericum is a mounded grower that has fine blue-silver foliage blanketed with 3/4" sunny yellow flowers in late spring and early summer. In fall, the leaves transform to yellow, orange, and red and reveal an attractive exfoliating bark. This plant thrives in full sun and well-drained soil and is adaptable in many parts of the country, growing reliably from Georgia to Minnesota. It is a good alternative to spirea and potentilla in colder areas of the country.
