

CENTENNIAL BLUSH STAR MAGNOLIA

Magnolia stellata 'Centennial Blush' PP22,248

USDA Hardiness Zone: 4-9

AHS Heat Zone: 9

Height: 12-18'

Width: 10-15'

Exposure: Full Sun

Shape: Upright, Oval

Centennial Blush Star Magnolia is a prolific bloomer with flower buds formed at almost every node, yielding a fantastic floral display of fragrant, delicate pink covering the entire plant. It blooms just as reliably in Minnesota as Georgia and is well adapted to a variety of soils. Attractive medium green foliage on an interesting branching structure follows in summer, turning yellow to bronze in autumn. It can be grown as a large shrub or a small tree, perfectly suited for small urban gardens.
