COURAGEOUS™ CRABAPPLE

Malus x 'Durlawrence'

USDA Hardiness Zone: 2-7

AHS Heat Zone: 7

Height: 20-25'

Width: 15-20'

Exposure: Full Sun

Shape: Upright, Rounded

This early blooming crabapple features highly fragrant lilac-pink blooms in spring and maroon new growth. As the new growth matures, it takes on a pleasant green-bronze hue. Courageous™ maintains an upright, broad, and natural form that looks good all year long. In fall, the foliage turns a beautiful yellow-orange, and the seedless fruit is mostly gone by winter. An excellent crabapple for specimen or group plantings. (® CA)
