

HONEYCOMB[®] NINEBARK

Physocarpus opulifolius 'ZLENora' PP34,624

USDA Hardiness Zone: 3-7

AHS Heat Zone: 7

Height: 4-6'

Width: 5-7'

Exposure: Full Sun to Part Shade

Shape: Upright, arching

Large, vibrant, chartreuse leaves hold their color all season long, even in full sun. Honeycomb-shaped white flowers appear in spring and contrast nicely with the foliage, which turns shades of gold in the fall. Honeycomb™ can be easily shaped with pruning or left to grow naturally. This ninebark grows nicely in containers and is just as attractive in the landscape. The medium size makes for a beautiful hedge or color block along a fence line.
