

## LITTLE DEVIL<sup>™</sup> NINEBARK

*Physocarpus opulifolius* 'Donna May' PP22,634

**USDA Hardiness Zone:** 3-7

**AHS Heat Zone:** 7

**Height:** 3-4'

**Width:** 3-4'

**Exposure:** Full Sun

**Shape:** Upright, Rounded

This improved ninebark has an upright spreading habit and fine-textured, dark foliage that sets it apart from others in the category. It is also mildew resistant and low maintenance, requiring little to no pruning. Additionally, Little Devil<sup>™</sup> is free from pest and disease issues and adapts well to wet or dry soil. Consumers will appreciate its clusters of small purplish-white flowers in June that contrast nicely with the burgundy foliage. Little Devil<sup>™</sup> is a good substitute for barberry in areas of the country where barberry is invasive.
