Shape: Upright, Rounded

Discovered and introduced by Bailey Nurseries, Tiger Eyes<sup>®</sup> is a beautiful golden-leaved form of cutleaf staghorn sumac that presents lively chartreuse green new growth that quickly changes to yellow — both colors contrasting nicely with the rosy-pink leaf stems. Branches angle upward while the deeply cut leaflets drape downward. As magnificent as the summer colors are, the dramatic effect of yellow, orange and intense scarlet in autumn is unparalleled. The award-winning Tiger Eyes<sup>®</sup> tolerates a wide range of soils and doesn't sucker profusely or have a heavy seed set.
