ST CROIX™ AMERICAN ELM

Ulmus americana 'St Croix' PP20,097

USDA Hardiness Zone: 3-6

AHS Heat Zone: 6

Height: 60-75'

Width: 70-90'

Exposure: Full Sun

Shape: Broadly Vase-Shaped

With a grand, vase shape and an open, spreading canopy, St. Croix™ American Elm promises to revitalize this well-loved shade tree. Dark green summer foliage turns to a wonderful yellow in the fall. The selection is a clone from a tree in Minnesota that survived in a stand of DED-infected elms for over 35 years. In testing at the University of Minnesota, St. Croix™ shows very good DED tolerance in repeated field trials with controlled inoculation.
