

## QUEEN BEE™ CHASTETREE

*Vitex agnus-castus* 'Bailtexthree' PP35,259

**USDA Hardiness Zone:** 6-9

**AHS Heat Zone:** 9

**Height:** 5-6'

**Width:** 7-9'

**Exposure:** Full Sun

**Shape:** Upright, Arching

Long-lasting blooms and improved flower power make this shrub a true standout. Vibrant lavender flowers appear in mid-June and continue throughout the summer. The first round of flowers encourages a strong rebloom, which is ideal for scheduling production cycles. Queen Bee™ exhibits impressive drought, heat and cold tolerance compared to similar varieties. With its larger size, this pollinator magnet creates a beautiful and colorful hedge or focal point.
