

FLOWERFULL[®] SMOOTH HYDRANGEA

Hydrangea arborescens 'BAIful' PP35,613 CPBRAf

USDA Hardiness Zone: 3-8

AHS Heat Zone: 8

Height: 3-4'

Width: 4-5'

Exposure: Full Sun to Part Shade

Shape: Mounded

FlowerFull[®] is a major improvement over the industry standard, with superior genetics that promote significantly heavier blooming and sturdier upright stems. This smooth hydrangea shows twice the number of blooms than comparable varieties, and doesn't flop as the season progresses, even in wind and rain. Its thick foliage remains clean throughout the season, adding beautiful contrast to the white mophead blooms. As summer continues, the flowers slowly fade to an attractive green. FlowerFull[®] is a winner from production to the landscape, as its flowers in the first year and stands tall with a consistent, mounded shape.
